

# 2025 BOND AUTHORITY

## WHAT DO WE NEED?

THE DISTRICT WILL HOLD AN ELECTION REGARDING THE AUTHORIZATION OF A \$32,000,000 BOND. THIS BOND IS DESIGNATED TO FUND ESSENTIAL CURRENT AND FUTURE WATER AND WASTEWATER IMPROVEMENTS AND RENOVATIONS AND TO REHABILITATE, REPAIR, AND MAINTAIN EXISTING FACILITIES.

## WHY DO WE NEED IT?

Our District's water and wastewater facilities and infrastructure are aging and the District is projected to experience significant growth. A key source of the capital investment funds required for repair and rehabilitation of the District's water and wastewater collection systems is through the sale of bonds.

The District currently has no available bond authority.

## HOW DO WE PLAN TO UTILIZE THE FUNDING?

- Proposed 500,000 gallon per day wastewater treatment plant expansion;
- Proposed 500 to 1,000 gallon per minute water well;
- Proposed 200,000 gallon elevated water storage tank; and
- Proposed 500,000 gallon ground storage water tank.

## HOW WILL THIS AFFECT ME?

If voters approve this bond, the estimated rate per \$1,000 assessed value will be \$0.20 in 2026 through 2027, \$0.25 in 2028, \$0.30 in 2029, and \$0.32 in 2030 through 2055.

If voters choose not to approve this bond, the monthly water and sewer rates (monthly water bill) will increase significantly.
